

**PRODUCT DESCRIPTION**

The DCE Series desk cabinet is available in 11 different standard heights. The basic assembly is a 16 gauge CRS cabinet with a 16 gauge removable rear door. The equipment mounting rails are attached to a pre-formed bracket to support the mounted equipment. These back up rails are 11 gauge CRS punched and tapped (10-32) holes on standard E.I.A. universal spacing.

The rear door has been shortened 3" at the door bottom to allow for cable access and is equipped with a Paddle latch and slip joint hinges for easy removal. All louvers protrude outward and down to allow adequate ventilation. Equipment mounting screws are included.

**STANDARD FEATURES**

- 16 gauge welded desk cabinet assembly  
Mounting angles are pre-formed stationary and backed with 11 gauge CRS punched and tapped (10-32) holes on standard E.I.A. universal spacing, with equipment mounting screws provided.
